NEXT PRESIDENT AND VICE PRESIDENT!

TILDEN

ELECTED!

DEMOCRACY TRIUMPHANT!

THE RADICALS ROUTED!

BALLOTS VICTORIOUS OVER BAYONETS!

GLORY, HALLELUJAH!

Honest Men Will Now Rule!

The Party of Hate and Corruption Emigrate to Salt River!

A great battle has been fought and a great victory won. Notwithstanding the falsehoods, the villainies, the frauds and the forgeries of the Radical leaders, the Democracy have achieved a triumph that is unparalleled in grandeur and glory. SAMUEL J. TILDEN has been elected President, and THOMAS A. HENDRICKS Vice President of the United States, after one of the most earnest political contests ever witnessed in this country.

On Wednesday, the election of Tilden and Hendricks was conceded by both parties. All the dispatches indicated that they had secured the vote of a "Solid South," with New York, New Jersey, Connecticut and Indiana, which would give us 203 electoral votes, or 18 more than is necessary to elect, with Wisconsin in doubt, and Oregon, California and Nevada to be heard from.

Later dispatches gave the three Pacific States to the Republicans, leaving Wisconsin still in doubt. Subsequently, the Radicals received dispatches claiming Louisiana, South Carolina and Florida, while dispatches to Democrats claimed Louisiana by from 10,000 to 12,000 majority, South Carolina by from 1000 to 1500 majority, and Florida by a small majority. On the strength of these returns the Democrats were willing to bet \$100 to \$25, 1 ut the Republicans seemed unwilling to risk their money. What will be the ultimate decision in regard to the returns from Louisiana, South Carolina and Florida, after they have passed through the hands of Radical "Returning Boards," Carpet-baggers and Scallawags, it is impossible to conjecture; but unless fraud and villainy succeed, SAMUEL J. TILDEN will surely be inaugurated as President of the United States.

As near as we can "figure it out" at the

present writing, we think the result is about as follows:

Later and Better!

Just as our paper was ready for press (at 4 o'clock, P. M. Friday), we received dispatches which place the election of Tilden and Hendricks beyond the shadow of a doubt.

A private dispatch from New Orleans states that the Republicans concede Louisiana to the Democrats by 1700 majority.

COLUMBUS, O., Nov. 10.

To GEN. G. W. MORGAN—Pelton telegraphs Tilden's election assured. Our advices give us the whole South, with New York, New Jersey, Connecticut and Indiana—two hundred and three electoral votes. Glory enough.

JNO. G. THOMPSON.

These figures of course are not official, but they are taken mostly from Republican papers. It will therefore appear that the Democratic popular vote exceeds that of the Republicans nearly two to one!

KNOX COUNTY OFFICIAL.

We present to our readers below the official vote of Knox county for President and Vice President, from which it will be seen that Tilden received 3301 votes and Hayes 3151 votes. Smith (Prohibition) received 82 votes, and Cooper (Greenback) 10 votes. The total vote polled was 6544, which was the largest vote ever polled in the county, or 268 more than at the October election. The Democracy still lead the column.

Let's out for fires in the Government buildings at Washington about these days.

ONE COUNTRY AND ONE FLAG

The North Shakes Hands with the South.

"Flag of the free heart's only home, By angel hands to valor given, Thy stars have lit the walk in dome, And all thy hues were born in Heaven. Forever float that standard sheet, Where breathes a foe but falls before us, With freedom's soul beneath our feet, And freedom's banner streaming o'er us."

BULLY FOR SAM AND TOM!

All That is Left of Grantism!

One of the Six Radical Clergymen

THIS OLD CANNON

Was captured from the British "one hundred years ago" and it comes out now to celebrate the Centennial Victory of the good old Democracy!

Democrats, rejoice, shout and be merry; but treat your neighbors kindly and gentlemanly, and don't exult over or insult them; for they will after a while enjoy the blessings of good Government in common with ourselves, and feel thankful for the change.

Our pious and dearly beloved friend, the Reverend J. H. Hamilton, proposes to engage in teaching a Sunday School class of little darlings at the headquarters of Salt River.

The Democrats have been out in the cold for sixteen long years, but they will now come back to the house of their fathers.

The Democracy have passed through the dark valley of affliction and defeat, and are now in full view of the promised land.

The "bloody shirt" was completely washed out on Tuesday.

The war is over. Now let us have peace.

October Crop Returns.
A digest of the crop returns for October, as prepared at the Department of Agriculture, indicates a reduction in the yield of wheat of nearly one-sixth, while the quality is somewhat superior. Every section of the Union indicates reduced production except the Middle States, in which there is an increase of about two per cent. The yield promises to be about 245,000,000 bushels. Rye is reported at 4 per cent less than 1875, but qualities better; barley 6 per cent less than last year; buckwheat 23 per cent. Every section of the Union is different, the Middle States showing 71 per cent deficiency. The corn crop is deficient, but the figures are not yet obtained. Cotton is a full crop and likely to equal the large yield of 1875. Sweet potatoes give promise of a full average crop. The sorghum crop is above the average. Tobacco is reported at full crop. In New York the largest tobacco county (Onondaga) advanced in September from 97 to 104. Beans are generally below the average. Fatted cattle are apparently somewhat less than last year, though the difference is small.

Deploable Condition of the Poor of New York.

Dr. Raborg, of New York, gives a most deplorable account of the situation of the homeless poor of that city. He says that among them are forty thousand vagrant children, and that many soldiers' widows, dependent on sewing for a living, are at times compelled to seek the police stations for shelter and a place to sleep in. With respect to the homeless children he states that hundreds of them become confirmed drunkards and thieves before attaining the age of twelve years, supplementing the statement with the assertion that there are grogeries at which a child is sold a drink of intoxicating poison for a cent. Dr. Raborg personally investigated these matters, and claims to know whereof he speaks. He adds that all the metropolitan asylums for needy children are overcrowded, notwithstanding the large number left to the mercy of the streets.

Education in Georgia.

According to the Atlanta Commonwealth in 1873, the first year of democratic rule in Georgia since the war, the colored pupils educated at the expense of the State under the State free school system were 17,755, or 13,991 more than the year before under republican rule. In 1874 the colored pupils numbered 42,374, or an increase of 22,619 over 1873. In 1875 the number of colored scholars educated by the State was 50,259. It will thus be seen that in Georgia 112,443 colored children were educated under democratic rule in three years, against 6,664 under republican rule, or a difference in favor of democratic liberality to the blacks of 105,824. This is a very significant showing.

Toledo and Columbus Railroad.

The new Columbus and Toledo Railroad is now regularly opened for business. Two passenger trains per day will run between Columbus and Marion—leaving Columbus at 10 A. M. and 5:30 P. M., Marion at 6:15 A. M. and 4:45 P. M. Freight trains will run on the line and will be received and delivered in Columbus at the freight depot of the Hocking Valley road. Passenger trains will run into and depart from the Union Depot at Columbus.

China has its big trees as well as California.

About 80 miles from Nikko, an avenue of aged, or cedar trees, begins, and with an occasional break where there is a village, it reaches the whole distance to the shrine of Iyeyasu—the longest avenue of shade in the world. These great trees are from five to seven feet in diameter at the base, and tower without a branch for 50 or 60 feet, and then lift their heads 40 or 50 feet higher. They resemble the giants of the Yosemite. The trunks are faultlessly straight and the bark is deeply veined. There are about 30,000 trees on this avenue, and all of them were planted after the foundation of the shrine, about 250 years ago.

A mass of 90,000,000 tons of pure, solid, compact rock salt, located on an island 185 feet high, which rises from a misadventurous sea marsh on the route from Brahear to New Iberia, up the River Teche, Louisiana, is one of the wonders of the world. How this island, containing over three hundred acres of excellent land, ever came into existence in such a locality is a matter of conjecture. Vegetation is prolific, and the scenery is beautiful and varied. Here is an immense bed of pure rock salt, whose extent is as yet only estimated, and scientific men are puzzled.

Police Justice Londerback, in his testimony before the Congressional Commission at San Francisco on Oct. 25, explained how difficult it was to secure the conviction of a Chinaman who had been arrested for committing an offense against his countrymen. The Chinese, as a class, have a small idea of the sanctity of an oath. When John C. is tried for murder there is so much lying, according to the justice's account, that a jury cannot discriminate between the true and the false. Arrests for drunkenness are seldom made in the Chinese quarter.

The government works undertaken for the protection of the Falls of St. Anthony will be completed about the middle of this month. The immense wall of solid concrete, which is to prevent the water from percolating the sink-rock and undermining the limestone ledge, is nearly finished. This wall is 1,875 feet long, extending across the river and running underneath the bank on each side. It is 40 feet high, seven feet thick at the base, and four feet thick at the top, where it connects with the ledge over which the waters of the Mississippi plunge.

English merchants and ship owners are becoming much alarmed at the increasing crime of broaching cargoes at sea by sailors. Many instances are on record where cargoes, helped themselves to wines, spirits and provision, and became mutinous, and through using lights and matches for their search, have set ships on fire. The only practical remedy as yet suggested is in having the bulkheads lined with sheet iron.

The young cities of the West have marvelous recuperative power. On Oct. 16, 1875, Virginia City, Nev., was nearly swept away by a disastrous conflagration. Save the noxiousness and freshness of the blocks, there is to-day scarcely a trace of the terrible disaster. From beds of embers and ruins expensive business blocks have sprung, and the city now has a handsome aspect. Bitter experience has taught the community one thing—the necessity of an improved water system.

Martin Pine was tried in Henderson, Ky., for an assault, and the lawyer who defended him deemed it polite to say that he was cowardly. Mr. Pine publishes this article: "I would not care to be the associate of Henderson, and especially to a learned gentleman who pronounced me a coward before a jury, that if he will take the trouble to select his friend and repair on the other side of the river, the matter can easily be decided who is the greater coward of the two."

The Columbus Post Office Thief.

John Reeves, the Columbus (Ohio) Post Office clerk, detected in abstracting money from letters, was arraigned for trial before Judge Swing and a jury in the United States court, yesterday. The defendant pleaded guilty, and was sentenced by the judge to one year's imprisonment in the County Jail at Columbus. This is the lowest degree of punishment for such an offense, the fullest extent being five years in the Penitentiary. Before his detection in crime Reeves stood as high as any man in Columbus for honesty. His friends were astounded at his disfigurement. He was for twelve years employed in the Post Office. Officers of the Court here have felt a good deal of pity for the old man. One of the Assistant Marshals rather than put him in jail to await his time for his arraignment, allowed him to remain in one of the offices during the day, and took him home to his own house over night. Reeves has a wife and four grown sons—Cincinnati Commercial, Nov. 3d.
